11 January 2007

***To whom so ever it may concern.***

***This is to inform that we have been dealing with arm-r-lite doors for the past few years , we found their product to be great and durable especially the TITAN models , the request for quotes are well responded with the lead time on manufacturing prompt. To work with the arm-r-lite people is a great pleasure.***

***Thanks & regards***

***Yours truly***
