

# Safety Partition

COMMERCIAL | RESIDENTIAL

***Safety Partitions** are the go-to solution to segment public spaces to meet social distancing guidelines.*

ArmRLite partitions are the go-to solution for schools, offices, or any public space that needs to be segmented or partitioned to meet COVID-19 social distancing guidelines. These act as containment zones, making it easier to stay safe, sanitize, and to control the environment protecting employees, students and customers from the disease.

## **Customization Options**

We have all of the tools to allow you to order 100% customizable partitions. Safety partitions can be designed with feet or wheels to make it even easier to use and sanitize in various locations. Custom options listed below.

- Size
- Shape
